

MORE PEOPLE... MORE PROGRAMS... MORE POWER!

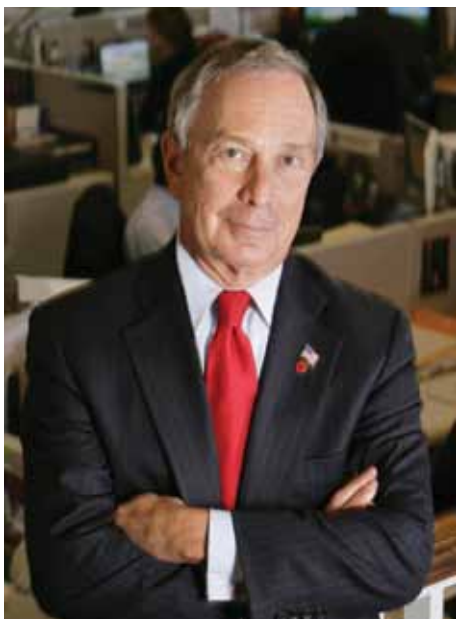

# ADVANCED ENERGY 2013

The Premier New York State Partnership of Energy Conferences

## WHERE BUSINESS, TECHNOLOGY AND OPPORTUNITY CONVERGE

APRIL 30 - MAY 1 2013 • JACOB K. JAVITS CONVENTION CENTER • NEW YORK • NY • USA

**Green Data Centers, Advanced Building Efficiency, Urban Energy Data, Advanced Lighting Technologies, Energy Entrepreneurship, Energy Workforce Training, Smart Grid, Solar, Biofuels, Urban Transportation, Climate Adaptations & Mitigation Strategies, Infrastructure Hardening Strategies & Technologies and more** – the very latest developments from every area of clean, renewable energy will be present at **Advanced Energy 2013**.

Joining New York City **Mayor Michael R. Bloomberg** will be 16 other distinguished keynote speakers, including New York Power Authority President & CEO Gil Quinones, New York State Energy Policy & Finance Chairman Richard Kauffman, Acting U.S. Undersecretary of Energy David Sandalow, U.S. Department of Homeland Security Deputy Undersecretary for Science & Technology Dr. Daniel Gerstein, Empire State Development President & CEO/Commissioner Kenneth Adams, SUNY Chancellor Dr. Nancy Zimpher, Acting Director of Brookhaven National Laboratory Dr. Doon Gibbs, and other leaders from academia, industry and government. Representatives from Governor Cuomo's staff will also showcase and discuss two of his recent energy programs: the **New York State Green Bank** and the **NY-Sun Initiative**.

Nineteen individual energy conferences have come together in New York City to create a landmark event that includes:

- 14 Program Tracks
- 91 Individual Sessions
- 20 Eminent Keynote Speakers
- 120 Exhibit Booths
- 346 Subject Matter Experts
- **Featured Keynote: Mayor Michael R. Bloomberg**

Renewable, sustainable energy is one of today's most critical concerns, and rife with opportunities for business and investment. Come hear and see the next "big thing" in energy. To see the complete, detailed program visit [aertc.org](http://aertc.org) and follow the links.

### PROGRAM TRACKS INCLUDE:

#### NY Sun Initiative & NYS Green Bank

Energy Policy  
 Informatics in Urban Energy Systems  
 Green Data Centers  
 Energy Storage  
 Research, Technology & Commercialization  
 Energy Entrepreneur & Start-ups Funding  
 Clean Energy Workforce Training  
 & Certification  
 Geothermal & Renewables

BioEnergy  
 Smart Grid Technology  
 Energy CyberSecurity  
 Advanced Transportation  
 Advanced Lighting  
 Northeast Renewable Energy Integration  
 Advanced Manufacturing Technologies  
 for Clean Energy Products  
 Natural Gas:  
 A Critical Resource for our Energy Future

Wind  
 SMART Tools for Large Scale Solar Development  
 Advanced Building: Revolutionizing Retrofits  
 Advanced Photovoltaics  
 Replace "Wind" with "Onshore/Offshore Wind"  
 Canada/U.S. Energy Challenges  
 Infrastructure Hardening, Climate Adaptation,  
 & Hurricane Preparation

### MAJOR SPONSORS OF ADVANCED ENERGY 2013 INCLUDE:

Registration, sponsorship and exhibitor information is available at [WWW.AERTC.ORG/CONFERENCE2013](http://WWW.AERTC.ORG/CONFERENCE2013)
